College in Third Year for Undeclared by Entry Year
Returning spring are students who enrolled either as freshman or external transfers the previous spring semester. The previous fall in the same college, internal transfers are students who were enrolled at the University the previous fall but in a different college. New freshman, N.Y. transfer are external transfers just entering Northeastern University. Returning from same college freshmen are students who were enrolled at NU the previous fall. These data look at the enrolled students as of the fall semester and place them in various categories. New freshman are first time full-time students. The make-up of enrolled class is shown.
but in a college other than Bouve, 367 had graduated, and 71 had withdrawn from the university. Example: in Fall 15, Bouve had 1,820 enrolled students. As of Fall 16, 1,385 of them were still enrolled in Bouve, 620 were enrolled at Northeastern. This summary looks at students enrolled in a given college in the fall and describes what the students' status was as of the following fall.
