

Memorandum

To: Art Kramer, Senior Vice Provost for Research and Graduate Education
Phil He, Vice Provost for Graduate Education

CC: Nadine Aubry, Carla Brodley
Nader Jalili, Hanumant Singh, and Robert Platt

From: Tom Sheahan

Date: 2/27/2018

Re: Master of Science in Robotics (MSROB)

Please note the College of Engineering voted on 1/26/2018 [7-0-0], the approval of the MS Robotics program. The College of Computer and Information Systems voted on 2/26/2018 [34-0-0], the approval of the MS Robotics program. I strongly support the creation of this program and informative notice to the Graduate Council.

There are budget implications, which can be found in the attached budget. Implementation of the proposal does not require funds from the Provost's Office.

For questions or inquires please contact Nader Jalili, n.jalili@northeastern.edu; Hanumant Singh, ha.singh@northeastern.edu; or Robert Platt, r.platt@ccs.neu.edu.

Sincerely,

Thomas Sheahan
